WARNING: Your password protects your account, anyone with knowledge of your phone number and account can use your account fraudulently. Your password is encrypted when you logon to your account online and when you use your phone. Here's some tips about keeping you account safe.

Choose a suitable password, a password that's easy for you to remember but difficult for others to guess. Include some numeric digits in your password.

We will **NEVER, EVER** ask you to reveal your password. Do not disclose you password to ANYONE.

Do not ever send your password in an email.

You can change your account password online whenever you wish, if you suspect your password has been compromised change it immediately and contact customer care.
