Special Offer - FREEBOX VoIP Adaptor/Gateway

We have a limited number of these units to give away FREE (just pay Â£10 to cover P&P) to all those signing up to an Unlimited Option (Home Unlimited or Small Business Unlimited) The FREEBOX is a high-speed, high-quality broadband VoIP gateway, with built-in Quality of Service (it allows you reserve bandwidth for important services such as Voice/Video/Gaming).

NOTE: This unit does not have Wi-Fi

The FREEBOX can be configured as an ADSL router (broadband via phone line) OR for use on a WAN connection (broadband via cable modem)

The FREEBOX is a Thomson SpeedTouch 716 (RRP79 GBP).

Main VoIP features are

- » Quality Calls with VoIP prioritisation (QoS)
- » Connects two regular phones to your Freespeech VoIP
- » Provides switching between PSTN calls and VoIP on a single phone (if you have an existing BT line)
- » Local Dial Plan (modify dialed numbers - example, modify to insert a prefix '01' for all calls without '0')
- » Easy Installation, we will provide a guide and email support to help you get started

The FREEBOX allows connection of multiple PCs, games consoles, and you can attach two standard telephone handsets and make FREE voice calls over your broadband connection.

IMPORTANT: This is an ADSL router (Broadband delivered via your phone line) but it can be configured for CABLE and WIRELESS providers by converting one LAN port to a WAN port (only Dynamic allocation via DHCP is supported - ask your broadband provider if you are unsure).
